Review our submission guidelines

Prior to submitting your paper, please review our submission guidelines here: https://eqderivatives. com/journal-of-systematic-investing/jsi-submissi on-guidelines

This is an example of a section

This is a regular paragraph. Please do not introduce personal settings to the layout of the section.

This is an example of a subsection

This is a regular paragraph. Don't use any section lower than subsection. If you need a footnote.[1]

Some floats

Some tables

Check the code to introduce a table.

Table 1 is a one-column table, Table 2 is a two-column table.

Table 1: One-column table

Head 1	Head 2	Head 3
Subhead 1	Subhead 2	Subhead 3
Subsubhead 1	a	b
Subsubhead 2	a	b
Subsubhead 3	a	b
Subsubhead 4	a	b

Notes: Use this macro to write notes outside the caption.

Source: Use this macro if you need to write the source.

And here's some random text.

And here's some more random text.

Some figures

Check the code to introduce a figure.

Here are some figure examples. Figures 1 and 2 are two figures. Figure 1 is a one-column figure, Figure 2 is a two-column figure.

Figure 1: One-column figure

And here's some random text.

And here's some more random text.

Some math

You can write math using the regular macros in the `amsmath` package. Here some math examples:

$$\nabla \cdot \mathbf{E} = \frac{\rho}{\varepsilon_0} \tag{1}$$

$$\nabla \cdot \mathbf{B} = 0 \tag{2}$$

$$\nabla \times \mathbf{E} = -\frac{\partial \mathbf{B}}{\partial t} \tag{3}$$

$$\nabla \times \mathbf{B} = \mu_0 \left(\mathbf{J} + \varepsilon_0 \frac{\partial \mathbf{E}}{\partial t} \right) \tag{4}$$

Some inline $E = mc^2$ math. See formula (1) and Equation (4).

Lists

You can use the classic LATEX lists environments.

Table 2: Two-column table

Head 1	Head 2	Head 3	Head 4	Head 5	Head 6
Subhead 1	Subhead 2	Subhead 3	Subhead 4	Subhead 5	Subhead 6
Subsubhead 1	2	3	4	5	6
Subsubhead 2	a	b	c	d	e
Subsubhead 3	a	b	c	d	e
Subsubhead 4	a	b	c	d	e

Figure 2: Two-column figure

Itemize

- Item 1
- Item 2
  - item a
  - item b
  - item c
- Item 3

Enumerate

1. Item 1
2. Item 2
   (a) item a
   (b) item b
   (c) item c
3. Item 3

Description

Description 1 Item 1

Description 2 Item 2

Description 3 Item 3

References

The JSI adhers to the Chicago Manual of Style, please refer to their guide for more: https://www.chicagomanualofstyle.org/home.html

To write an in-line citation you can use `\citet` like this: Goossens, Mittelbach, and Samarin (1993) say LaTeX is great.

To build a citation within parenthesis you can use `\citep` (Goossens, Mittelbach, and Samarin 1993).

For multiple citations, you can include them all inside the cite macro (Goossens, Mittelbach, and Samarin 1993; Einstein 1905).

Notes

1. Here's your footnote.

Appendix

This the appendix section, if you need one.
