American Economic Review Pointers:

- Do not use an "Introduction" heading. Begin your introductory material before the first section heading.
- Avoid style markup (except sparingly for emphasis).
- Avoid using explicit vertical or horizontal space.
- Captions are short and go below figures but above tables.
- The tablenotes or figurenotes environments may be used below tables or figures, respectively, as demonstrated below.
- If you are using an appendix, it goes last, after the bibliography. Use regular section headings to make the appendix headings.
- If you are not using an appendix, you may delete the appendix command and sample appendix section heading.
- Either the natbib package or the harvard package may be used with bibtex. To include one of these packages, uncomment the appropriate usepackage command above. Note: you can't use both packages at once or compile-time errors will result.
