

## **1 Details of main applicant**

Title:

Initials:

Prefix:

Surname:

Address for correspondence (for the entire period of the PhDs in the Humanities round): Telephone:

Cell phone:

Email:

Website (optional):

## **2 Co-applicants**

State the details of any co-applicants here.

## **3 Title of research proposal**

## **4 Summary**

## **5 Resubmitted proposal**

## **6 PhD candidate**

## **7 Curriculum Vitae PhD candidate**

- (a) Education
- (b) Honours, prizes, scholarships and grants
- (c) Relevant academic experience
- (d) Other relevant positions
- (e) Output
- (f) Motivation for doing PhD research

## **8 Period of funding**

## **9 Description of the proposed research**

The maximum permitted size of the text is 2500 words (excluding the list of references). Example reference (Suzuki [2016])

## References

T. N. Suzuki. Semantic communication in birds: evidence from field research over the past two decades. *Ecological Research*, 31(3):307–319, 2016.

## 10 Number of words

State the total number of words used in section 9.

## 11 Summary in keywords

State a maximum of 5 keywords that in your opinion best characterize the content of the research proposal.

## 12 Data management

Answer these four questions about data management within the intended research project:

1. Will data be collected or generated that are suitable for reuse? Yes: Then answer questions 2 to 4 No: Then explain why the research will not result in reusable data or in data that cannot be stored or data that for other reasons are not relevant for reuse

2. Where will the data be stored during the research?

3. After the project has been completed, how will the data be stored for the long-term and made available for the use by third parties? To whom will the data be accessible?

4. Which facilities (ICT, (secure) archive, refrigerators or legal expertise) do you expect will be needed for the storage of data during the research and after the research? Are these available?\*

\*ICT facilities for data storage are considered to be resources such as data storage capacity, bandwidth for data transport and calculating power for data processing.

## 13 Institutional embedding and supervision

Describe the research group that the candidate will be part of and state how the day-to-day supervision of the candidate will be realised. Maximum  $\frac{1}{2}$  page A4.

## **14 Work programme**

Specify and phase the work plan for the intended duration of the grant. Please bear in mind that the writing phase for the final publication is a fundamental component of the work programme. Time required for holidays must also be allowed for. Also allow time for the training and supervision programme. Maximum 1 page A4.

## **15 Research budget**

The grants to be awarded for personnel costs are in line with the agreements made between NWO and the universities about this in the Approval of funding for scientific research 2008. The research budget that can be applied for consists of (1) personnel costs ([www.nwo.nl/salary-tables](http://www.nwo.nl/salary-tables)), which include a benchfee of €5000 for the entire funding period, and (2) material costs that are directly related to the research up to a maximum of €5000 for the entire funding period. No specifications are needed for the benchfee; clear specifications are needed for the material costs (see call for proposals).

## **16 Summary for non-specialists (in Dutch or English)**

Provide a summary for non-specialists about your proposed research (in Dutch or English). This summary should be 300-500 words long.

## **17 Title and summary for newsletters and website (in Dutch and English)**

Provide a title and a summary (both in Dutch and in English) that, if the application is granted, will be used in the newsletters and on the website. The summary should be 50-100 words long.
