Abstract

[YOUR TEXT GOES HERE]

The thesis is written in [language] and is [number of pages in main document] pages long, including [number] chapters, [number] figures and [number] tables.

Annotatsioon

[Lõputöö pealkiri]

[YOUR TEXT GOES HERE]

Lõputöö on kirjutatud [mis keeles] keeles ning sisaldab teksti [lehekülgede arv] leheküljel, [peatükkide arv] peatükki, [jooniste arv] joonist, [tabelite arv] tabelit.

List of Abbreviations and Terms

API	Application Programming Interface
CPU	Central Processing Unit
IDE	Integrated Development Environment
IOT	Internet Of Things
VM	Virtual Machine

Table of Contents

1 Introduction	8
2 First Chapter	10
2.1 First Section of the First Chapter	10
2.1.1 First Subsection	10
2.2 Second Section of the First Chapter	10
3 Second Chapter	11
4 Summary	12
References	13
Appendix 1 – Non-Exclusive License for Reproduction and Publication of a Graduation Thesis	14
Appendix 2 – Something	15
Appendix 3 – Something Else	16

List of Figures

1	<i>An image of the TalTech logo.</i>	8
---	--	---

List of Tables

1 *A table with some requirements* 9

1. Introduction

Some basic ways to manipulate text are *italics* and **bold**. One can reference Figures (see Figure 1 for an example) as well as cite references which are defined in the *references.bib* file.[1, 2]

The *Bibliography*, *List of Figures* and *List of Tables* are all automatically generated and references will be updated automatically as well. This means that if you've defined a citation but are not referencing it, it will not appear in the *Bibliography*. This also means that any Figure / Table / Citations numbers are automatically updated as well. Numbering is done by order-of-appearance.

One can create an itemized list:

- item a
- item b
- ...

Or enumerate them:

1. item x
2. item y
3. ...

Figure 1. An image of the TalTech logo.

A table with three columns can be seen in Table 1.

Table 1. *A table with some requirements*

Nr	Requirement	Weight
1	Price	High
2	Variety	Middle
3	Support	Low

We can use variables set in the *main.tex* file to render values like our title ([Thesis Title]) or supervisor names (**Supervisor:** [Supervisor's Name], **Co-supervisor:** [Co-Supervisor's Name]).

2. First Chapter

This is the first real chapter of this thesis. Other chapters can be easily referenced, for example the introduction can be found as Chapter 1. Sections and/or subsections need to be labeled before one can reference them. See Section 2.2 for an example.

2.1 First Section of the First Chapter

Some text in the first section.

2.1.1 First Subsection

As well as some text in this subsection.

First Subsubsection

The Table of Contents only goes 3 layers deep (Chapter - Section - Subsection) so this subsubsection is not seen there.

2.2 Second Section of the First Chapter

3. Second Chapter

One of the best resources for \LaTeX basics, and advanced constructs, is the \LaTeX wikibook¹. Of course fellow students, colleagues and a good internet search using your favorite search engine can do wonders if you're stuck.

¹To be found at <http://en.wikibooks.org/wiki/LaTeX/>

Appendix 1 – Non-Exclusive License for Reproduction and Publication of a Graduation Thesis¹

I [Author name]

1. Grant Tallinn University of Technology free licence (non-exclusive licence) for my thesis “[Thesis Title]”, supervised by [Supervisor’s Name]
 - 1.1. to be reproduced for the purposes of preservation and electronic publication of the graduation thesis, incl. to be entered in the digital collection of the library of Tallinn University of Technology until expiry of the term of copyright;
 - 1.2. to be published via the web of Tallinn University of Technology, incl. to be entered in the digital collection of the library of Tallinn University of Technology until expiry of the term of copyright.
2. I am aware that the author also retains the rights specified in clause 1 of the non-exclusive licence.
3. I confirm that granting the non-exclusive licence does not infringe other persons’ intellectual property rights, the rights arising from the Personal Data Protection Act or rights arising from other legislation.

18.05.2022

¹The non-exclusive licence is not valid during the validity of access restriction indicated in the student’s application for restriction on access to the graduation thesis that has been signed by the school’s dean, except in case of the university’s right to reproduce the thesis for preservation purposes only. If a graduation thesis is based on the joint creative activity of two or more persons and the co-author(s) has/have not granted, by the set deadline, the student defending his/her graduation thesis consent to reproduce and publish the graduation thesis in compliance with clauses 1.1 and 1.2 of the non-exclusive licence, the non-exclusive license shall not be valid for the period.

Appendix 2 - Something

```
<!DOCTYPE html>

</body>
</html>
```

Appendix 3 – Something Else

Pythagorean theorem

$$x^n + y^n = z^n \quad (1)$$

Normal distribution

$$P(x) = \frac{1}{\sigma\sqrt{2\pi}} e^{-(x-\mu)^2/2\sigma^2} \quad (2)$$
