Chapter 1

The Model

1.1 Introduction

From Barro and Lee (2013), we know that the economic growth is heavily dependent on human capital, which in turns relies on the returns to education.

This has been proven to be true (Acemoglu and Johnson, 2007) where he shows that ...

1.2 Model

1.3 Equilibrium Dynamics

Appendices

Appendix A

Appendix for Chapter 1

A.1 Proof of Proposition 1

$$\max U_t := \ln(c_t) + \beta \ln(d_{t+1})$$
$$\text{s.t.} \quad c_t + \frac{d_{t+1}}{R_{t+1}} = w_t$$
